 $\label{thm:companying} \textit{ notes form part of these financial statements.}$

(1) Accounting policies

(A) Reporting Entity

Infratil Limited ('the Company') is a company domiciled in New Zealand and registered under the Companies Act 1993. The Company is listed on the NZX Main Board ('NZX') and Australian Securities Exchange ('ASX'), and is an FMC Reporting Entity in terms of Part 7 of the Financial Markets Conduct Act 2013.

(B) Basis of preparation

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ('NZ GAAP') and comply with New Zealand equivalents to International Financial Reporting Standards ('NZ IFRS') and other applicable financial reporting standards as appropriate for profit-oriented entities. The presentation currency used in the preparation of these financial statements is New Zealand dollars, which is also the Company's functional currency, and is presented in \$ thousands unless otherwise stated. The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated. Comparative figures have been restated where appropriate to ensure consistency with the current period.

The financial statements comprise statements of the following: comprehensive income; financial position; changes in equity; cash flows; significant accounting policies; and the notes to those statements. The financial statements are prepared on the basis of historical cost, except financial derivatives valued in accordance with accounting policy (D).

Accounting estimates and judgements

The preparation of financial statements in conformity with NZ IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Future outcomes could differ from those estimates. The principal areas of judgement in preparing these financial statements are set out below.

(a) Valuation of investments

Infratil completes an assessment of the carrying value of investments at least annually and considers objective evidence for impairment on each investment taking into account observable data on the investment, the fair value, the status or context of capital markets, its own view of investment value, and its long term intentions. Infratil notes the following matters which are specifically considered in terms of objective evidence of impairment of its investments, and whether there is a significant or prolonged decline from cost, which should be recorded as an impairment, and taken to profit and loss: any known loss events that have occurred since the initial recognition date of the investments, including its long term investment horizon, specific initiatives which reflect the strategic or influential nature of its existing investment position and internal valuations; and the state of financial markets. The assessment also requires judgements about the expected future performance and cash flows of the investment.

(b) Accounting for income taxes

Preparation of the financial statements requires management to make estimates as to, amongst other things, the amount of tax that will ultimately be payable, the availability of losses to be carried forward and the amount of foreign tax credits that it will receive. Actual results may differ from these estimates as a result of reassessment by management and/or taxation authorities.

(C) Taxation

Income tax comprises both current and deferred tax. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance date, and any adjustment to tax payable in respect of previous years. Deferred tax is recognised in respect of the differences between the carrying amounts of assets and liabilities for financial reporting purposes and the carrying amounts used for taxation purposes.

The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits or deferred tax liabilities will be available within the Company against which the asset can be utilised.

(D) Derivative financial instruments

When appropriate, the Company enters into agreements to manage its interest rate, foreign exchange, operating and investment risks. In accordance with the Company's risk management policies, the Company does not hold or issue derivative financial instruments for speculative purposes. However, certain derivatives do not qualify for hedge accounting and are required to be accounted for at fair value through profit or loss. Derivative financial instruments are recognised initially at fair value at the date they are entered into. Subsequent to initial recognition, derivative financial instruments are stated at fair value at each balance sheet date. The resulting gain or loss is recognised in the profit or loss immediately unless the derivative is designated effective as a hedging instrument, in which event, recognition of any resultant gain or loss depends on the nature of the hedging relationship.

(E) Impairment of assets

At each reporting date, the Company reviews the carrying amounts of its tangible and intangible assets, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

(F) Borrowings

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate. Fees and other costs incurred in arranging debt finance are capitalised and amortised over the term of the relevant debt facility.

(G) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on translation are recognised in profit or loss.

(H) Adoption status of relevant new financial reporting standards and interpretations

The Company has early adopted amendments to NZ IAS 1 Presentation of Financial Statements for the year ended 31 March 2021. The amendments clarify the classification of liabilities as current or non-current.

(I) New standards, amendments and pronouncements not yet adopted by the Group

There are no new standards that are not yet effective that would be expected to have a material impact on the Group, in the current or future reporting periods, and foreseeable future transactions.

(2) Nature of business

The Company is the ultimate parent company of the Infratil Group, owning infrastructure businesses and investments in New Zealand, Australia, Europe and the United States. The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 5 Market Lane, Wellington, New Zealand.

(3) Infratil shares and dividends

Ordinary shares (fully paid)	2021	2020
	Shares	Shares
Total authorised and issued capital at the beginning of the year	659,678,837	559,278,166
Movements during the year:		
New shares issued	63,273,696	99,992,228
New shares issued under dividend reinvestment plan	-	1,030,793
Conversion of executive redeemable shares	-	265,267
Share buyback	-	(887,617)
Total authorised and issued capital at the end of the year	722,952,533	659,678,837

During the period the Company issued new shares to provide additional balance sheet flexibility and to fund growth investments across Infratil's existing portfolio companies and take advantage of new opportunities that may arise, raising \$294.2 million via an institutional placement and share purchase plan for existing shareholders. During the comparative period the Company issued new shares to support the acquisition of a 49.9% share of Vodafone New Zealand Limited, raising net proceeds after issue costs of \$390.9 million via an institutional placement and an entitlement offer to existing shareholders. All fully paid ordinary shares have equal voting rights and share equally in dividends and equity. At 31 March 2021 the Group held 1,662,617 shares as Treasury Stock (2020: 1,662,617).

Dividends paid on ordinary shares	2021	2020	2021	2020
	cents per share	cents per share	\$000	\$000
Final dividend prior year (paid 5 June 2020)	11.00	11.00	72,565	72,526

Audit and review of financial statements	237	7 194
Other assurance services	19	15
Taxation services		-
Other services		-
Total fees paid to the Company auditor	256	209

The audit fee includes the fees for both the annual audit of the Group and Company financial statements and the review of the interim financial statements. Other assurance services relate to agreed upon procedures.

(5) Net realisations and (impairments)

At 31 March 2021 the Company reviewed the carrying amounts of loans to Infratil Group companies to determine whether there is any indication that those assets have suffered an impairment loss. The recoverable amount of the asset was estimated by reference to the counterparties' net asset position and ability to repay loans out of operating cash flows in order to determine the extent of any impairment loss. Management also considered the impact of the COVID-19 pandemic. As a result, the Company did not impair any loans to Infratil Group companies in 2021 (2020: nil). These balances are within the Infratil Wholly Owned Group to entities also controlled either directly or indirectly by Infratil Limited.

(6) Taxation

	2021 \$000	2020 \$000
Surplus before taxation	179,882	54,931
Taxation on the surplus for the period @ 28% Plus/(less) taxation adjustments:	50,367	15,381

Fixed coupon

The fixed coupon bonds the Company has on issue are at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds.

Perpetual Infratil infrastructure bonds ('PIIBs')

The Company has 231,916,600 (31 March 2020: 231,916,600) PIIBs on issue at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. For the period to 15 November 2021 the coupon will be fixed at 1.71% per annum (2020: 2.67%). Thereafter the rate will be reset annually at 1.50% per annum over the then one year swap rate for quarterly payments, unless Infratil's gearing ratio exceeds certain thresholds, in which case the margin increases. These infrastructure bonds have no fixed maturity date. No PIIBs (2020: nil) were repurchased by Infratil Limited during the period.

IFTHC bonds

The Company has 123,186,000 (31 March 2020: 123,186,000) IFTHCs on issue at a face value of \$1.00 per bond. Interest is payable quarterly on the bonds. For the period to 15 December 2021 the coupon is fixed at 2.75% per annum (2020: 3.50%). Thereafter the rate will be reset annually at 2.50% per annum over the then one year swap rate for quarterly payments.

IFT270 bonds

The interest rate of the IFT270 bonds is fixed for the first five years and then reset on 15 December 2023 for a further five years. The interest rate for the IFT270 bonds for the period from (but excluding) 15 December 2023 until the maturity date will be the sum of the five year swap rate on 15 December 2023 plus a margin of 2.50% per annum.

Throughout the period the Company complied with all debt covenant requirements as imposed by the bond supervisor.

At 31 March 2021 the Infratil Infrastructure bonds (including PIIBs) had a fair value of \$1,336.5 million (31 March 2020: \$1,161.5 million).

(8) Financial instruments

The Company has exposure to the following risks due to its business activities and financial policies:

- Credit risk
- Liquidity risk
- Market risk (interest rates and foreign exchange)

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board also has a function of reviewing management practices in relation to identification and management of significant business risk areas and regulatory compliance. The Company has developed a comprehensive, enterprise wide risk management framework. Management and Board participate in the identification, assessment and monitoring of new and existing risks. Particular attention is given to strategic risks that could affect the Company.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations, resulting in financial loss to the Company. The Company is exposed to credit risk in the normal course of business including those arising from financial derivatives and transactions (including cash balances) with financial institutions. The Company has adopted a policy of only dealing with credit-worthy counterparties, as a means of mitigating the risk of financial loss from defaults. Derivative counterparties and cash transactions are limited to high-credit-quality financial institutions and other organisations in the relevant industry. The Company's exposure and the credit ratings of counterparties are monitored. The carrying amounts of financial assets recognised in the Statement of Financial Position best represent the Company's maximum exposure to credit risk at the reporting date. No security is held on these amounts.

Liquidity risk

Liquidity risk is the risk that assets held by the Company cannot readily be converted to cash to meet the Company's contracted cash flow obligations. Liquidity risk is monitored by continuously forecasting cash flows and matching the maturity profiles of financial assets and liabilities. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due and make value investments, under both normal and stress conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The tables below analyses the financial liabilities into relevant maturity groupings based on the earliest possible contractual maturity date at the year end date. The amounts in the tables below are contractual undiscounted cash flows, which include interest through to maturity. Perpetual Infratil Infrastructure Bond cash flows have been determined by reference to the longest dated Infratil Bond maturity in the year 2029.

Market risk

Interest rates

Interest rate risk is the risk of interest rate volatility negatively affecting the Company's interest expense cash flow and earnings. The Company mitigates this risk by issuing borrowings at fixed interest rates or entering into Interest Rate Swaps to convert a portion of floating rate exposures to fixed rate exposure. Borrowings issued at fixed rates expose the Company to fair value interest rate risk which is managed by the interest rate profile and hedging.

2021 \$000 \$000 At balance date the face value of interest rate contracts outstanding were: Interest rate swaps in place at year end 45,000 45,000 Fair value of interest rate swaps (2,158)(4,791)The termination dates for the interest rate swaps are as follows: Between 0 to 1 year 45,000 Between 1 to 2 years 45,000 Between 2 to 5 years Over 5 years

Interest rate sensitivity analysis

The following table shows the impact on post-tax profit and equity of a movement in bank interest rates of 100 basis points higher/lower with all other variables held constant.

\$000 \$000 Profit or loss 100 bp increase 2.322 960 (946)100 bp decrease (2,320)

There would be no material effect on equity.

Foreign currency

The Company has exposure to currency risk on the value of its assets and liabilities denominated in foreign currencies, future investment obligations and future income. Foreign currency obligations and income are recognised as soon as the flow of funds is likely to occur. Decisions on buying forward cover for likely foreign currency investments is subject to the Company's expectation of the fair value of the relevant exchange rate.

Foreign exchange sensitivity analysis

At 31 March 2021, if the New Zealand dollar had weakened/strengthened by 10 percent against foreign currencies, with all other variables held consistent, posttax profit would not have been materially different. There would have been no material impact on balance sheet components.

The carrying amount of financial assets and financial liabilities recorded in the financial statements is their fair value, with the exception of bond debt held at amortised cost which have a fair value at 31 March 2021 of \$1,336.5 million (31 March 2020: \$1,161.5 million) compared to a carrying value of \$1,378.9 million (31 March 2020: \$1,293.2 million).

2020

2021

Estimation of fair values

The fair values and net fair values of financial assets and financial liabilities are determined as follows:

- The fair value of financial assets and liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- The fair value of other financial assets and liabilities are calculated using market-quoted rates based on discounted cash flow analysis.
- The fair value of derivative financial instruments are calculated using quoted prices. Where such prices are not available, use is made of discounted cash flow analysis using the applicable yield curve or available forward price data for the duration of the instruments.

Where the fair value of a derivative is calculated as the present value of the estimated future cash flows of the instrument, the two key types of variables used by the valuation techniques are:

- forward price curve (for the relevant underlying interest rates, foreign exchange rates or commodity prices); and
- discount rates.

The selection of variables requires significant judgement and therefore there is a range of reasonably possible assumptions in respect of these variables that could be used in estimating the fair value of these derivatives. Maximum use is made of observable market data when selecting variables and developing assumptions for the valuation techniques.

All financial instruments measured at fair value in the statement of financial position are valued either directly (that is, using external available inputs) or indirectly (that is, derived from externally available inputs) and are classified as level 2 under NZ IFRS 7.

Valuation Input	Source
Interest rate forward price curve	Published market swap rates
Discount rate for valuing interest rate derivatives	Published market interest rates as applicable to the remaining life of
	the instrument.

Fair value hierarchy

The analysis of financial instruments carried at fair value, by valuation method is below. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The Company has interest rate swap derivatives that are classified as Level 2 and have a fair value liability of \$2.2 million at 31 March 2021 (2020: \$4.8 million).

There were no transfers between derivative financial instrument assets or liabilities classified as level 1 or level 2, and level 3 of the fair value hierarchy during the year ended 31 March 2021 (2020: nil).

Capital management

The key factors in determining the Company's optimal capital structure are:

- Nature of its activities
- Quality and dependability of earnings/cash flows
- Capital needs over the forecast period
- Available sources of capital and relative cost

There were no changes to the Company's approach to capital management during the year.

The Company's capital includes share capital, reserves, and retained earnings. From time to time the Company purchases its own shares on the market with the timing of these purchases dependent on market prices, an assessment of value for shareholders and an available window to trade on the NZX. Primarily the shares are intended to be held as treasury stock and may be reissued under the Dividend Reinvestment Plan or cancelled. During the year no shares were bought back by the Company (2020: 887,617).

The Company seeks to ensure that no more than 20% of its Infrastructure bonds mature in any one year period, and to spread the maturities of its facilities. The Company manages its interest rate profile so as to minimise net value volatility. This means having interest costs fixed for extended terms. At times when long rates appear to be unsustainably high, the profile may be shortened, and when rates are low the profile may be lengthened.

(9) Investment in subsidiaries and associates

The significant investments of the Company and their activities are summarised below:

Subsidiaries	Holding	Holding	Principal activity	Country of

(11) Share Scheme

Infratil Staff Share Purchase Scheme

In 2008 Infratil commenced a staff share purchase scheme ('the Staff Share Scheme'). Under the Staff Share Scheme participating employees have a beneficial title to the ordinary shares, which are held by a trustee company. Staff are provided a loan in respect of the shares which is repayable over a period of three years. Upon repayment of the loan and three years' service by the participating employee, the ordinary shares will transfer from the trustee company to the participating employee, and the shares become unrestricted. Other than in exceptional circumstances, the length of the retention period before the shares vest is three years during which time the ordinary shares cannot be sold or disposed of.

During the year no shares were transferred to employees under the scheme (2020: 42,566 shares).

Infratil Executive Redeemable Share Scheme

From time to time selected key eligible executives and senior managers of Infratil and certain of its subsidiaries are invited to participate in the Infratil Executive Redeemable Shares Scheme ('Executive Scheme') to acquire Executive Redeemable Shares ('Executive Shares'). The Executive Shares have certain rights and conditions and cannot be traded and do not convert to ordinary shares until those conditions have been met. The Executive Shares confer no rights to receive dividends or other distributions or to vote. Executive Shares may be issued which will convert to ordinary shares after three years (other than in defined circumstances) provided that the issue price has been fully paid and vesting conditions have been met. The vesting conditions include share performance hurdles with minimum future share price targets which need to be achieved over the specified period. The number of shares that "vest" (or LTI bonus paid) is based on the share price performance over the relevant period of the Infratil ordinary shares. If the executive is still employed by the Group at the end of the specified period, provided the share performance hurdles are met the executive receives a long term incentive bonus ('LTI') which must be used to repay the outstanding issue price of the Executive Shares and the Executive Shares are then converted to fully paid ordinary shares of Infratil.

No new Infratil Executive Redeemable Shares were granted during the current or prior year.

On 31 May 2019, Infratil accelerated the entitlements of executives of Snapper Services Limited (Snapper) under the 2016 Infratil Executive Share Scheme pursuant to the Infratil Limited Executive Share Scheme Trust Deed dated 22 August 2008 (Trust Deed), to allow those executives the benefit of that Scheme on completion of the sale of Snapper. As a consequence of this, on 4 June 2019 Infratil converted 54,504 Executive Shares into Ordinary Shares.

On 17 June 2019, the 2016 Infratil Executive Redeemable Share Scheme matured having met certain share performance thresholds. Pursuant to this and the Infratil Limited Executive Share Scheme Trust Deed dated 22 August 2008 (the Trust Deed), on 19 July 2019 the Company converted 210,763 Executive Redeemable Shares into Ordinary Shares.

The remaining 167,733 Executive Redeemable Shares for which the performance hurdle was not met pursuant to the Trust Deed were cancelled and therefore not converted to ordinary shares.

(12) Commitments

There are no outstanding commitments (2020: nil).

(13) Contingent liabilities

The Company and certain wholly owned subsidiaries are guarantors of the bank debt facilities of Infratil Finance Limited under a Deed of Negative Pledge, Guarantee and Subordination and the Company is a guarantor to certain obligations of subsidiary companies.

The Company has a contingent liability under the international fund management agreement with Morrison & Co International Limited in the event that the Group sells its international assets, or valuation of the assets exceeds the performance thresholds set out in the international fund management agreement.

The Company has agreed to guarantee certain obligations of Infratil Trustee Limited, a related party, that is the Trustee to the Infratil Staff Share Scheme. The amount of the guarantee is limited to the loans provided to the employees.

(14) Related parties

Certain Infratil Directors have relevant interests in a number of companies with which Infratil has transactions in the normal course of business. A number of key management personnel are also Directors of Group subsidiary companies and associates.

Morrison & Co Infrastructure Management Limited ('MCIM') is the management company for the Company and receives management fees in accordance with the applicable management agreement. MCIM is owned by H.R.L. Morrison & Co Group Limited Partnership ('MCO'). Mr Bogoievski was a director of Infratil until 31 March 2021 and is a director and Chief Executive Officer of MCO. Mr Boyes assumed the role of Infratil Chief Executive Officer from 1 April 2021. Entities associated with Mr Bogoievski and Mr Boyes also have a beneficial interest in MCO.

Note 9 identifies significant entities in which the Company has an interest. All of these are related parties of the Company. The Company has the following significant loans and investments to/from/in its subsidiaries:

(loan)/advance/investment at Interest income/(expense) carrying value **Related Party** 2021 2021 2020 2020 \$000 \$000 \$000 \$000 Advances Infratil Finance 122.714 2,081,057 1,645,101 124.256 Aotea Energy Holdings Limited (153,897) (153,897) Investments in Infratil Investments Limited 87,665 87,665 Infratil 1998 Limited 12,000 12,000 Infratil Finance Limited 153,897 153,897 Infratil No. 1 Limited 78,024 78,024 Infratil PPP Limited 5,942 5,942 Infratil No. 5 Limited 248,001 248,001

Management and other fees paid by the Company to MCIM, MCO or its related parties during the year were:

	2021 \$000	2020 \$000
Management fees 15	45,074	36,943
International Portfolio Incentive fee 16	223,100	125,000
Directors fees	-	112
Financial management, accounting, treasury, compliance and administrative services	1,612	1,250
Investment banking services	-	1,245
Total management and other fees	269,786	164,550

At 31 March 2021 amounts owing to MCIM of \$4,483k (excluding GST) are included in accounts payable (2020: \$2,806k).

Intercompany

(15) Management fee to Morrison & Co Infrastructure Management Limited ('MCIM')

The management fee to MCIM comprises a number of different components:

A New Zealand base management fee is paid on the "New Zealand Company Value" at the rates of 1.125% per annum on New Zealand Company value up to \$50 million. 1.0% per annum on the New Zealand Company Value between \$50 million and \$150 million, and 0.80% per annum on the New Zealand Company Value above \$150 million. The New Zealand Company Value is:

- the Company's market capitalisation as defined in the management agreement (i.e. the aggregated market value of the Company's listed securities, being ordinary shares, partly paid shares, infrastructure bonds and warrants):
- plus the Company and its wholly owned subsidiaries' net debt (excluding listed debt securities and the book value of the debt in any non-Australasian investments):
- minus the cost price of any non-Australasian investments: and
- plus/minus an adjustment for foreign exchange gains or losses related to non-New Zealand investments.

An international fund management fee is paid at the rate of 1.50% per annum on:

- the cost price of any non-Australasian investments: plus
- the book value of the debt in any wholly owned non-Australasian investments.

(16) International Portfolio Incentive Fee

International Investments are eligible for International Portfolio incentive fees ('incentive fees') under the Management Agreement between MCIM and Infratil. The Agreement allows for incentives to be payable for performance in excess of a minimum hurdle of 12% per annum in three separate areas:

- Initial Incentive Fees;
- Annual Incentive Fees; and,
- Realised Incentive Fees.

To the extent that there are assets that meet these criterion, independent valuations are performed on the respective International Investments to determine whether any Incentive Fees are payable.

International Portfolio Initial Incentive Fee

International Investments become eligible for the Initial Incentive Fee assessment on the third balance date (31 March) that they have been held continuously by the Company. All International Investments that are acquired in any one financial year are grouped together for the purposes of the Initial Incentive Fee, and an Initial Incentive Fee is payable at 20% of the outperformance of those assets against a benchmark of 12% p.a. after tax, compounding.

There were no International Investments eligible for the International Portfolio Initial Incentive Fee as at 31 March 2021. (31 March 2020: None).

International Portfolio Annual Incentive Fee

Thereafter International Investments are grouped together, and an Annual Incentive Fee is payable at 20% of the outperformance of those assets against the higher of, a benchmark of 12% p.a. after tax, relative to the most recent 31 March valuation, or cost.

The Company's investments in CDC Data Centres, Longroad Energy, RetireAustralia, Tilt Renewables and ASIP are eligible for the International Portfolio Annual Incentive fee assessment as at 31 March 2021 (31 March 2020: ASIP, RetireAustralia, CDC Data Centres, Longroad Energy and Tilt Renewables).

Based on independent valuations obtained as at 31 March 2021, an Annual Incentive Fee of \$223.1 million is payable to MCIM (31 March 2020: \$125.0 million).

International Portfolio Realised Incentive Fee

Realised Incentive Fees are payable on the realised gains from the sale or other realisation of International Investments at 20% of the outperformance (since the last valuation date) against the higher of, a benchmark of 12% p.a. after tax, relative to the most recent 31 March valuation, or cost. No Realised Incentive Fees were payable as at 31 March 2020 or 31 March 2021.

International Portfolio Incentive Fees	2021	2020
	\$000	\$000
ASIP	1,600	(800)
CDC Data Centres	140,200	105,500
Longroad Energy	(8,000)	6,100
RetireAustralia	3,200	(18,000)
Tilt Renewables	86,100	32,200
	223,100	125,000

All Incentive fees accrued in 2021 relate to the Annual Incentive Fee assessment (2020: all fees relate to the Annual Incentive Fee assessment).

Payment of Annual Incentive Fees

Any Annual Incentive Fee calculated in respect of a Financial Year is earned and paid in three annual instalments, with the second and third instalments only being earned and payable if, at each relevant assessment date, the fair value of the relevant asset (including distributions, if any) exceeds the greater of fair value or cost as at the 31 March for which the Incentive Fee was first calculated.

(17) Segment analysis

During the year, the Company operated in predominantly one business segment, that of investments.

Geographical segments

The Company operated in one geographical area, that of New Zealand. Certain subsidiaries of the Company invest in Australia, Europe and the United States.

(18) Events after balance date

Dividend

On 18 May 2021, the Directors approved a partially imputed final dividend of 11.5 cents per share to holders of fully paid ordinary shares to be paid on 22 June 2021

Acquisition of Pacific Radiology Group

On 29 April 2021 Infratil announced that it had executed a conditional agreement to acquire between 50.1% and 60% of Pacific Radiology Group Limited ("Pacific Radiology"), a comprehensive Diagnostic Imaging business in New Zealand, from existing Doctor shareholders. Infratil confirmed on 13 May 2021 that the acquisition is now unconditional and that completion of the acquisition is expected to occur on 31 May 2021, for total consideration of approximately \$312 million to \$344 million.

Independent Auditor's Report

To the shareholders of Infratil Limited

Report on the audit of the financial statements

Opinion

In our opinion, the accompanying financial statements of Infratil Limited (the 'company') on pages 1 to 17:

- present fairly in all material respects the company's financial position as at 31 March 2021 and its financial performance and cash flows for the year ended on that date; and
- comply with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying financial statements which comprise:

- the statement of financial position as at 31 March 2021;
- the statements of comprehensive income, changes in equity and cash flows for the year then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the company in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

Our firm has also provided other services to the company in relation to other assurance engagements and due diligence services These matters have not impaired our independence as auditor of the company. The firm has no other relationship with, or interest in, the company.

Use of this independent auditor's report

This independent auditor's report is made solely to the shareholders as a body. Our audit work has been undertaken so that we might state to the shareholders those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of the Directors for the financial statements

The Directors, on behalf of the company, are responsible for:

- the preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards);
- implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

× Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Brent Manning.
