Galileo Green Energy launches pipelines in Ireland, UK and Sweden

Infratil advises that Galileo Green Energy (**GGE**) has announced that it has closed a long term contract with a development partner from Northern Europe to develop a wind farm pipeline in the UK of ~500 MW and another wind pipeline in Sweden of ~1,000 MW.

GGE has previously announced that it had secured a partnership with renewable energy developer EMPower to jointly develop a ~300 MW (now ~400 MW) portfolio of greenfield wind farm sites in Ireland.

A media release from GGE is attached.
